

CMS Reveals New Medicare Card Design

Removing Social Security numbers strengthens fraud protections for about 58 million Americans

The new Medicare card contains a unique, randomly assigned number that replaces the current Social Security-based number.

CMS will begin mailing the new cards to people with Medicare benefits in April 2018 to meet the statutory deadline for replacing all existing Medicare cards by April 2019.

CMS has assigned all people with Medicare benefits a new, unique Medicare number, which contains a combination of numbers and uppercase letters. People with Medicare will receive a new Medicare card in the mail, and will be instructed to safely and securely destroy their current Medicare card and keep their new Medicare number confidential. Issuance of the new number will not change benefits that people with Medicare receive.
