

# **Medicare Part D**

## **Prescription Drug Coverage: Basic Information**

### **What is Medicare prescription drug coverage?**

Medicare prescription drug coverage is insurance that covers both brand-name and generic prescription drugs at participating pharmacies in your area. Medicare prescription drug coverage provides protection for people who have very high drug costs or from unexpected prescription drug bills in the future.

### **Who can get Medicare prescription drug coverage?**

Everyone with Medicare is eligible for this coverage, regardless of income and resources, health status, or current prescription expenses.

### **When can I get Medicare prescription drug coverage?**

You may sign up when you first become eligible for Medicare (three months before the month you turn age 65 until three months after you turn age 65). If you get Medicare due to a disability, you can join from three months before to three months after your 25th month of cash disability payments. If you don't sign up when you are first eligible, you may pay a penalty. If you didn't join when you were first eligible, your next opportunity to join will be from October 15, 2019 to December 7, 2019.

### **How does Medicare prescription drug coverage work?**

Your decision about Medicare prescription drug coverage depends on the kind of health care coverage you have now. There are two ways to get Medicare prescription drug coverage. You can join a Medicare prescription drug plan or you can join a Medicare Advantage Plan or other Medicare Health Plan that offers drug coverage.

Whatever plan you choose, Medicare drug coverage will help you by covering brand-name and generic drugs at pharmacies that are convenient for you.

Like other insurance, if you join, generally you will pay a monthly premium, which varies by plan, and a yearly deductible. You will also pay a part of the cost of your prescriptions, including a copayment or coinsurance. Costs will vary depending on which drug plan you choose. Some plans may offer more coverage and additional drugs for a higher monthly premium.

### **Why should I get Medicare prescription drug coverage?**

Medicare prescription drug coverage provides greater peace of mind by protecting you from unexpected drug expenses. Even if you don't use a lot of prescription drugs now, you should still consider joining. As we age, most people need prescription drugs to stay healthy. For most people, joining now means protection from unexpected prescription drug bills in the future.

### **What if I have a limited income and resources?**

If you have limited income and resources, and you qualify for extra help, you may not have to pay a premium or deductible. You can apply or get more information about the extra help by calling Social Security at 1-800-772-1213 (TTY 1-800-325-0778) or by visiting [www.socialsecurity.gov](http://www.socialsecurity.gov) on the web or call MMAP at 1-800-803-7174.
